Spring Acreage

Spring acreage reporting time is upon us. You should have received your acreage reports via mail or email.

We are encouraging you to get in and certify your acres with FSA. Please let FSA know to forward FARM Inc. a copy of your 578's when they are complete so we can ensure your acres are reported correctly.

We are starting to do things via email more frequently here at the office. If you would like us to send things to you via email rather than through the mail please let us know. We want to make the process as easy as possible for you.

Check Us Out

FARM Inc. has a brand new look. We've completely redone our website.

Interactive links for rainfall policies, weather updates and commodity price trackers are now available to you along with much more. Swing by the new website to meet the team and stay up to date on all things FARM Inc. The QR code to the left will take you directly to the new and improved site or you can use www.farminc.biz.

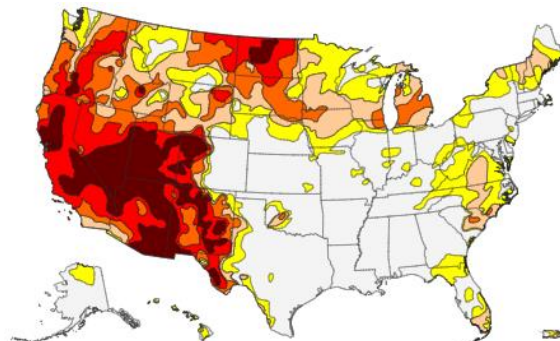

News For Pasture Rangeland & Forage

Arizona is experiencing one of its driest years in recent history with nearly 99% of the state in some sort of drought. With the lack of rain, PRF policies have performed exceptionally well throughout the state. This has helped Farmers and Ranchers get through the extreme drought by putting more money in their pocket.

PRF for Apiculture

The PRF policy is not only available for Farmers and Ranchers, Beekeepers are also eligible for the PRF program which provides a safety net for their income sources – honey, pollen collection, wax and breeding stock. Rather than reporting acres, beekeepers will report colonies. Alfalfa growers should let their beekeepers know they are eligible to sign up as well.

Drought Map as of June 8, 2021

38.9% of the United States is in a drought

If you would prefer to receive all future newsletters by email rather than by mail please send us a message stating so to: farminc@cox.net
