Nebraska/Colorado/Kansas Edition

January 2022

Tucker Knight

We are pleased to introduce to you the newest member to the FARM Inc. family. Tucker Knight has been part time as an intern since 2020 and has decided to move to full time position at FARM Inc. Tucker Knight was born in Arizona and grew up in Springerville, AZ. He has roots in many aspects of agriculture with family farms in Buckeye and the family ranch in Springerville. He just recently graduated from West Texas A&M where he played baseball and earned a Bachelor's degree in Agribusiness. Tucker is excited to join the FARM Inc. family and we are thrilled to have him.

Additional Coverage Options

It is a nice change of scenery to see commodity prices high, isn't it? With the prices looking up we are encouraging growers to take a look at Supplemental Coverage Option (SCO) and Enhanced Coverage Option (ECO) for this crop year. We believe it is a good year to get these options added to your underlying MPCl policy. Please reach out to us if you're interested in discussing these options!

FARM Inc. 20 Year Anniversary Party

Save the date! FARM Inc. is celebrating its 20th anniversary this year. We would love for you to come join in on the fun. The big event will be held on **March 26, 2022 beginning at 5 o'clock PM** at our Tempe office located at **9865 S. Priest Dr. Tempe, AZ 85284**. There will be drinks, dinner and live music from the great Danny Walls and the CanyonWalls Band and obviously great company! We are looking forward to celebrating with all of you and we hope you are able to make it. If you have any questions regarding accommodations, please don't hesitate to reach out.

Scan the QR code to the right to RSVP!

Dry Bean Plan Change

Starting in the 2022 crop year, the Dry Bean APH Plan is no longer available in Colorado and Nebraska. The original APH plan has been replaced by Yield Protection (YP). If you have an APH policy it will automatically be converted to YP. In addition, Colorado and Nebraska now offer Revenue Protection (RP) but only on Pinto Beans. These changes do not apply to Kansas, it remains the same as previous years. If you have any questions regarding these changes or would like a quote please reach out to us!

Market Uncertainties

Livestock Risk Protection (for feeder and fed cattle) and Dairy Revenue Protection both offer protection from future market uncertainties. Cattle and milk prices are at or near contract highs and now would be a great time to take a closer look at how these policies could potentially benefit you.

If you would prefer to receive all future newsletters by email rather than by mail please send us a message stating so to: farminc@cox.net

2021 Yields

If you haven't done so already, please remember to send us your yields for the 2021 spring crops. We will need this in order to get you a correct quote for the new crop year. Please don't forget to let us know if your yields are off for any reason. The sooner the better!

Important Dates

- January 15th – Acreage reporting date for Annual Forage Growing Season 2.
- February 1st - February 29th – Corn insurance initial price measured using 2022 DEC. board and soybean insurance initial price measured using 2022 NOV. board.
